INTRODUCTION

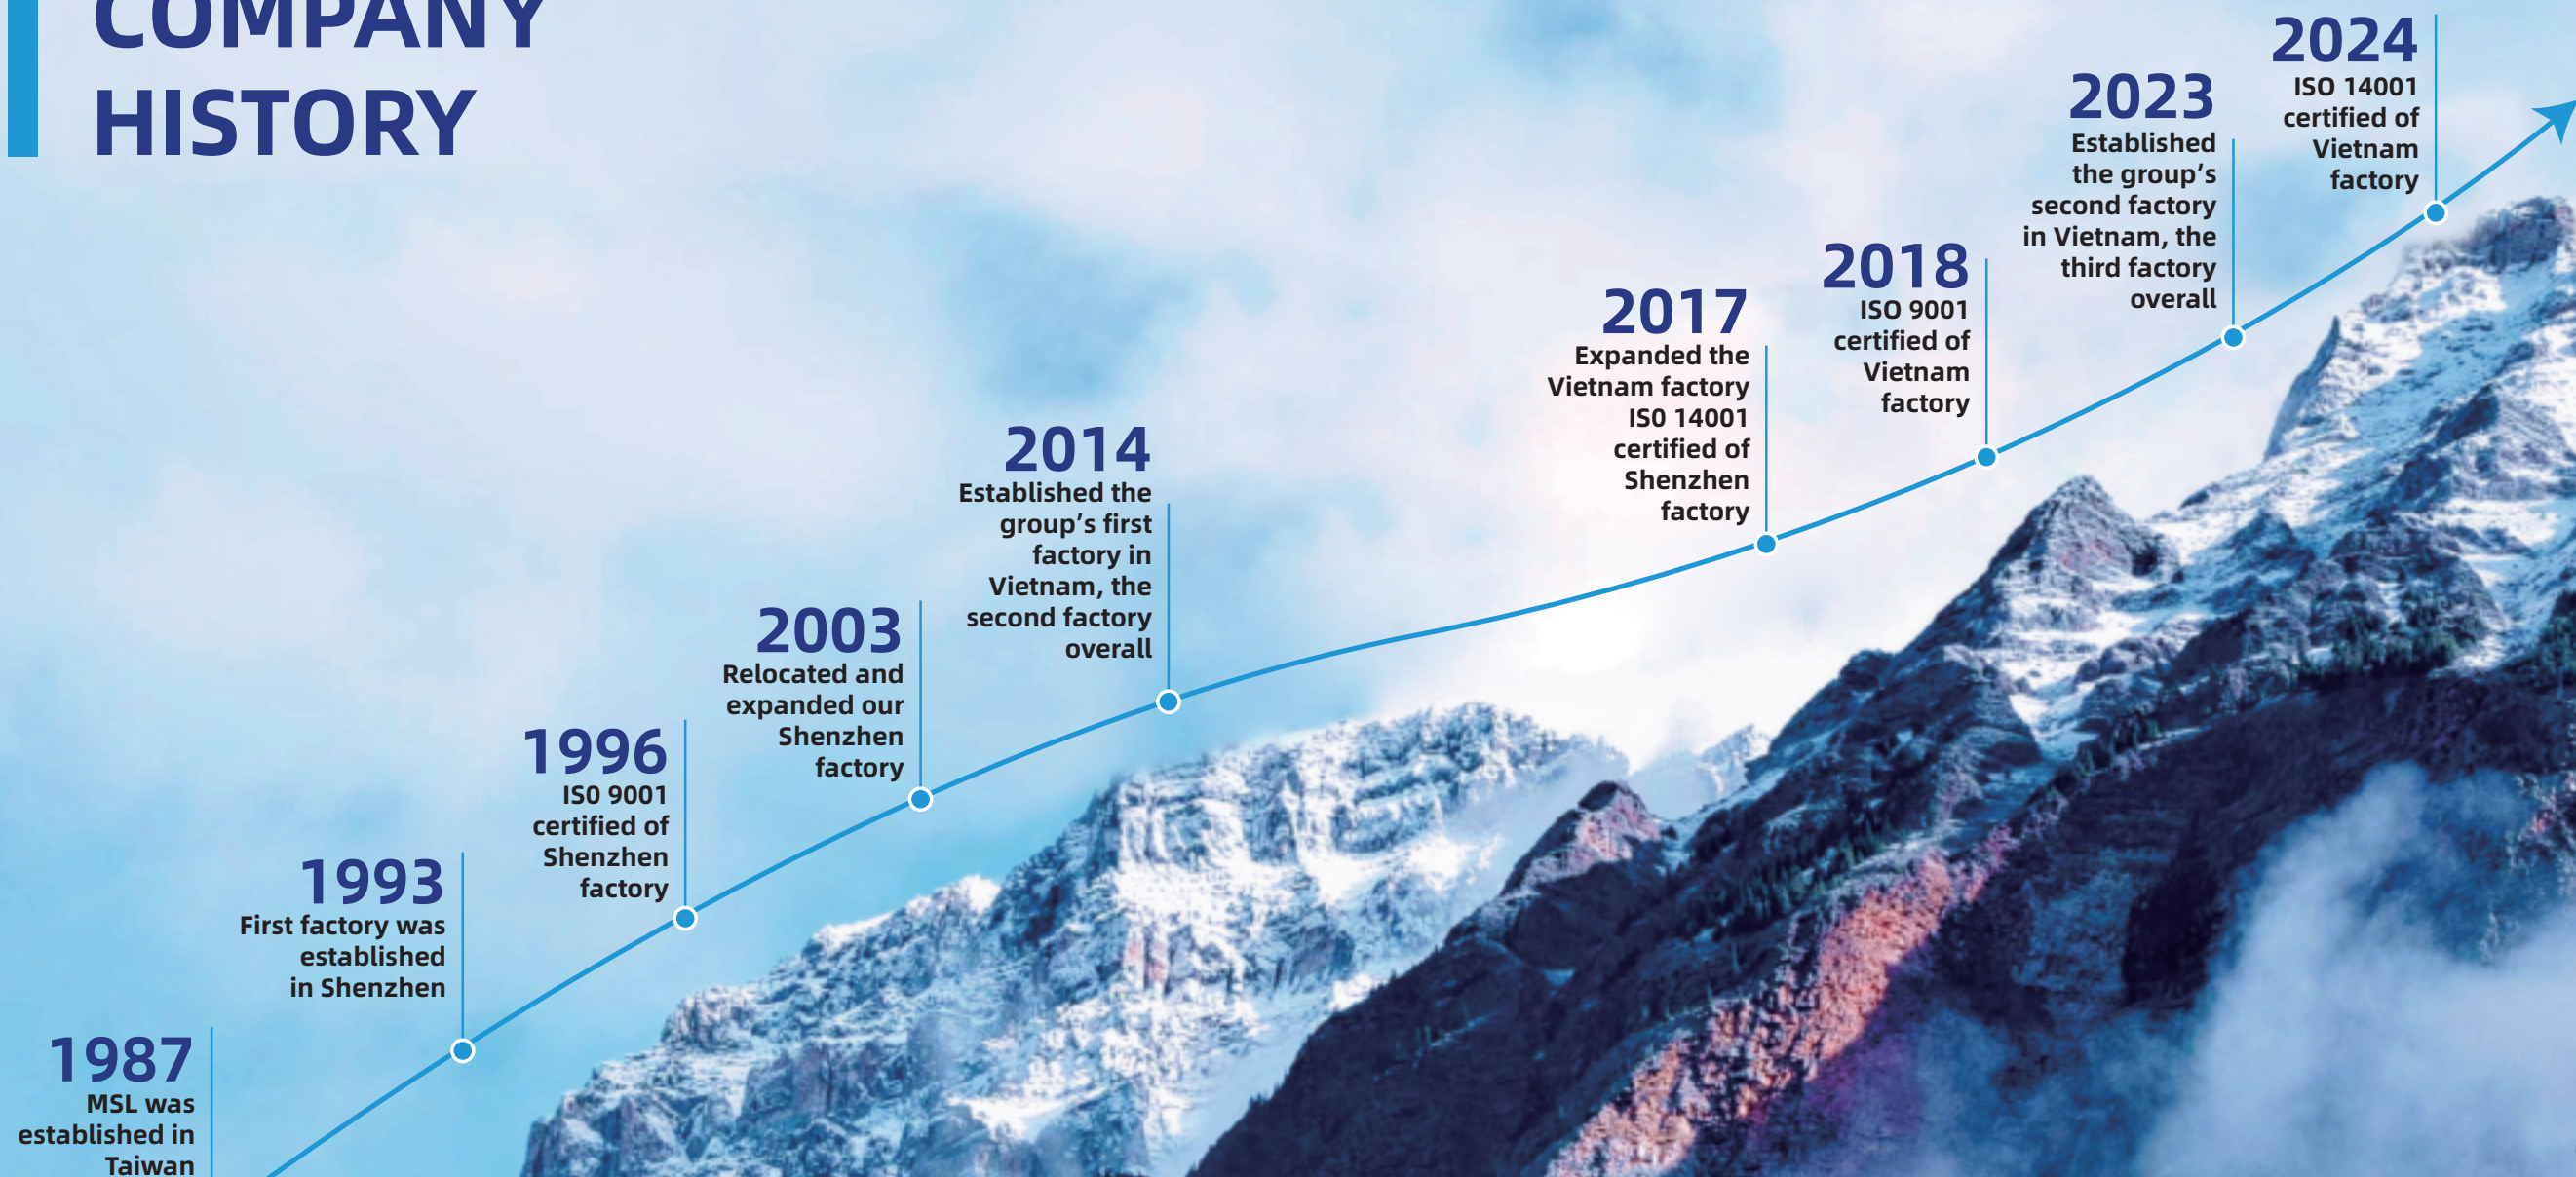

MSL Enterprises Corp. was founded in 1987. Our first factory was established at Shenzhen in 1993, with an area of 30,000 m² in 2014. Second factory was established in North Vietnam, with an area of 30,000 m², and we have set up the third factory in Vietnam in 2023, with an area of 20,000 m². We specialize in cables and computer accessories and export our products to USA, Europe, Asia, and worldwide.

Our company has a full range of manufacturing capabilities of PVC compound, copper wire, raw cables, optical fiber cables, cable assemblies and fiber assemblies. We can offer product designs by customer's requirement (OEM/ODM) and can provide very competitive prices with the best lead time for our customers.

Sincerity is always our managing concept. In order to provide the high-quality service to our customers, our mission statement is to continuously enhance our research & development ability, improve the quality of our products and make the production line efficient, and to keep our price competitive in the market.

COMPANY HISTORY

OUR ADVANTAGE

MSL

WE HAVE COMPLETE MANUFACTURING CHAIN AND CAN
PROVIDE THE FULL RANGE OF PRODUCT DESIGN.

QUALITY CERTIFICATION

We are an ISO-9001 & ISO-14001 qualified factory and have multiple safety certifications to meet customer's quality demand.

LABORATORY

We have completed test laboratory to fulfill the customer's quality requirement in every production base.

Aging Oven

To test the aging of Insulation/Jacket

Heat Distortion Tester

To test the heat resistance of cable

Salt Spray Chamber

To test the corrosion resistance of various metal parts

Plug Flexing Tester

To test the bending of the plug

Temperature Rising Tester

To test the temperature rising of plug

Flame Tester

To test the fire resistance of insulation or jacket

Time-domain Reflectometer

To test the high frequency cable and lan cable

Freezing Impact Tester

To test the impact resistance of the cable or relative parts under low temperature

Cable Flexibility Testing Equipment

To test the flexibility of the cable

Cold Bending tester

To test the bending of the cable under low temperature
